RSS TEAM CONTRIBUTION

Provided product research and procurement support to procure, order and deliver 16 tanks ranging from 1000 to 2000-gal capacity for the following Locations:

Phoenix, Fort Edward, Fonda, Albion, Pittsford, Waterford, Lockport, Lyons

Project Overview:

- Provide new fueling islands for Canal Corp across New York State
- 8 Different locations
- 16 tanks from 1,000 to 2,000-gal in size
- ACT-100® Steel-Fiberglass composite
- Underground storage tank features a double wall steel tank for structural integrity and a 100 Mil minimum fiberglass outer coating for long-lasting corrosion protection. Double-wall design allows continuous interstitial leak detection and monitoring
